Certificate of Completion: Becoming a Skillful User and Manager of Artificial Intelligence (AI) in the Workplace

Participants will build essential competencies using and working with AI through a blend of instructional content, practical exercises, collaborative activities, and real-world applications. Participants will also learn how to use AI ethically, while accounting for regulatory compliance and organizational value.

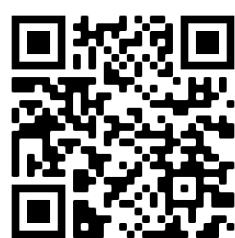

After successfully completing the program, participants will have a fundamental understanding of AI from both a practitioner and managerial perspective, positioning them as valuable assets in an increasingly AI-integrated workplace.

Certificate of Completion includes two 4 week courses (1 credit each):

- **AILR 101 Introduction to AI Tools and Practices in the Workplace**
- **AILR 102 Managing the Use of AI in the Workplace**

**Future Skills, powered by Bellevue
University's partnership with Truist, is the
future of learning**
